You're Invited: Israel - US Water Initiative

Round Table Discussion about
U.S. Water Challenges & Israeli Water Solutions

You're invited to the 1st Round Table under the Israel - US Water Initiative.

Hosted by the Israel-Colorado Innovation Fund (ICI Fund) and the American Water Works Association (AWWA), the Israel - US Water Initiative Round Table will include discussion about US water and wastewater utilities' challenges and their technology needs, and an introduction to promising Israeli technology solutions.

Those looking for innovation in water are encouraged to attend, including:

- Operational Managers of Wastewater Collection and Treatment
- Operational Managers of Water Treatment and Distribution
- General Managers and Engineering Managers
- Chief Information Officers and Chief Information Security Officers

Oded Distel, Head of NewTech, Israel Ministry of Economy, and one of the founding fathers of the Israeli Water Industry, will speak about how Israel solved the water crisis and became a water powerhouse. Event also includes a discussion about a planned SOC/NOC for the US Water Utilities.

Event will take place at AWWA in Denver on Wednesday, July 18th beginning at 2pm, followed by a reception beginning at 5pm.

Complimentary program. This is not a public event.
Registration is required as space is limited: www.ici.fund/water

Wednesday, July 18th
2:00 pm - 6:30 pm
